

Indoor Projects

New or retrofit project	
Ceiling Height	
Mounting Height	
Color of the ceilings and walls	
Is the requested layout a verification or recommendation	
Requested Light Level	

Please provide detailed description of the space: *e.g. Office space, Classroom, Warehouse etc.*

Please provide required lighting standard:

- IES:
- Other: *e.g. Required Footcandle (FC) average, Max / Min ratio etc.*
- Please provide details for space(s): *e.g. surface reflectivity, type of use, age of users etc.*

Please provide required luminaire details:

- Preferred Luminaire: *e.g. part number detail.*
- Designers choice best luminaire to meet required FC etc.:
- Controls required:

Deliverables:

- Design time frame:
- Design materials needed for submission:

Special notes:

* Jademar Lighting design and photometric reports are provided for informational purposes only. Variable or inaccurate data supplied to Jademar Lighting (including, but not limited to, surface reflectance values and site dimensions) in addition to actual site conditions (including, but not limited to, voltage variation and dirt accumulation) can cause actual field performance to differ from the calculated photometric performance represented. Jademar supplied lighting designs and photometric reports are generated using methods recommended by the Illuminating Engineering Society of North America (IESNA) and accomplished using industry standard third party CAD software. Lighting design and photometric reports generated thusly are provided without warranty as to accuracy, completeness, reliability or otherwise. In no event will Jademar Lighting be responsible for any loss resulting from any use of this report. *
